

2020 Town of Lysander Summer Engineering Intern Position

JOB QUALIFICATIONS

QUALIFICATIONS: College student or graduate of an accredited civil engineering program or other closely related field with an interest in civil engineering, construction inspection and asset management. DRIVER'S LICENSE IS REQUIRED. Applicants will be required to remain on their feet for extended periods of time during construction inspection tasks and be able to traverse uneven terrain at active construction sites.

JOB DESCRIPTION

Perform the following activities during the summer of 2020:

- Participate in the Cornell Local Roads CAMP RS Training Program, May 19, 2020 through May 21, 2020 in Ithaca NY (compensation for mileage to and from training daily will be paid by the Town)
- Collect roadway condition surveys
- Suggest road maintenance practices and associated unit costs
- Generate a prioritized listing of proposed roadway maintenance using CAMP RS computer program
- Complete the annual update of the Town of Lysander Pavement Management Plan
- Construction inspection for highway and residential development construction projects
- Design of drainage maintenance and improvement projects

The position will be a 35 hour work week, Monday through Friday from 7:30 A.M. to 4:30 P.M, with an hour off for lunch, occasional overtime may be required. The rate of pay will be between \$12 and \$15 per hour depending on experience. The position will start May 18, 2020 and conclude no later than August 28, 2020. Qualified candidates should e-mail resumes to the Town of Lysander Engineer Mr. Allen J. Yager, P.E. at the email address below no later than April 28, 2020.
