

AGENDA ATTACHMENTS
TOWN BOARD MEETING 4/19/2018

The use for this land if rezoned for commercial use would to become the shop and staging area for equipment for Flat Rock Hardscapes Inc. Flat Rock Hardscapes is a company that performs landscape and hardscape installation and maintenance as well as snow plowing in the winter. That work entails building patios, walkways outdoor kitchens and fire pits etc. Also helping customers with pool areas for outdoor living spaces. There would be around 4-5 company pick-up trucks along with around 6 trailers of different types essential to landscaping. We would like to place a sign in front to advertise our business. For now just being able to park our trucks and equipment and have a place for our employees to show up will help us be closer to the majority of our work in Baldwinsville. There would be 5-6 employees parking there as of now. Employees would get into company equipment and leaving until returning from work at the end of the day. There may be occasional returning during the day to resupply. We would neatly stockpile bulk material for use on the job, not for resale. There would be delivery trucks on occasion bringing those bulk materials. There would be a need for a dumpster there all the time. Typical business hours are 7am-5pm.

Future development- As our business grows, we would like to build a barn to store our equipment and supplies and attach a small office space for the management of the business. Also build a small display area for our potential customers to view our work and see what we have to offer. We plan to work with and support local businesses in our operation and want to provide a quality service to this community.
