National Grid ("Company") is offering an energy conservation program ("Program") to certain commercial and industrial customers ("Customer") that have an average monthly demand less than or equal to 110 kW. Under the Program, the Company is arranging the installation of certain energy efficiency measures ("Measures") at the facilities of eligible customers. Customer agrees to have a contractor hired by the Company for the Program install the Measures and pay a portion of the installation cost as described in Section Six listed below. The following are terms and conditions that govern the Program and the installation of the Measures.

1. Measures to be Installed

An independent contractor ("Installation Contractor") hired by the Company will install at Customer's property the conservation Measures described in Section Six below. The Installation Contractor shall permanently disable all lamps replaced pursuant to this Agreement (make them unfit for reuse). The disposal of any lighting equipment which is removed (with exception of fluorescent ballasts and lamps) will be the responsibility of the participating Customer. The disposal of any fluorescent ballasts and lamps will be the responsibility of an outside contractor hired by the Company.

2. Installation Date

The Installation Contractor will attempt to install the Measures within thirty (30) days of Customer signing this Agreement. Measure installations must be completed between 1/1/2017 - 12/31/2017.

3. Warranty and Disclaimers

- (a) The Company will provide a one-time equipment replacement free of charge for any equipment that fails to operate according to manufacturer's specifications for a period of two years after the date of the original installation. Lamps will be warranted for one year.
- (b) Customer may have other warranty rights that may have been provided by the manufacturer of the devices installed under this Agreement. Customer, however, may exercise such rights only against the manufacturer, and not against the Company or its affiliates.
- (c) OTHER THAN THE REPLACEMENT WARRANTY STATED IN SUBPARAGRAPH 3(a) ABOVE, NEITHER THE COMPANY NOR ITS AFFILIATES MAKE ANY WARRANTIES OF ANY KIND, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE
- (d) The Company does not guarantee that the Measures will, in fact, save any level of energy or result in a lowering of the customer's electric utility bill.
- (e) Neither the Company nor its affiliates shall be liable to Customer for consequential or incidental damages arising out of the Program, whether in contract, tort (including negligence) or any other theory of recovery

4. Access to Property

- (a) Customer will provide reasonable access to Customer's property during normal business hours for Installation Contractor to perform the installation work.
- (b) In addition, the Customer will allow the Company to make a reasonable number of follow-up visits during the twenty-four months following installation, with advance notice and at a time convenient to the customer. The purpose of the follow-up visits is to provide the Company with an opportunity to review the operation of the Measures for program education purpose. During the follow-up visits, the Company may make suggestions to the Customer regarding operation of the Measures, but the Customer is under no obligation to follow any such suggestions. If the Customer does follow any instructions, the Company will not be liable to the Customer in tort (including negligence) for the Customer's reliance on the suggestions.

5. Discretion of Installation Contractor

When undertaking the installation, the Installation Contractor or the Company (at their sole discretion) may choose not to make the installations specified below for reasons related to safety, discovery of unforeseen conditions, or the complete utilization of the Company's program budget.

6. Equipment and Customer Contribution

(a) The Installation Contractor will install the equipment listed on the attached Small Business Energy Savings Plan, incorporated herein by reference. The estimated cost of the installation including the estimated cost of the Customer's contribution is also itemized on this report. The Customer may choose to pay its cost contribution over twelve months or may choose to pay it in one lump sum. If the Customer chooses to pay it in one lump sum, the Company shall discount the Customer's contribution by 5%.

The Customer opts to pay its cost contribution by (check one):

Lump sum payment of \$2297.36 includes Customer discount of 5%

Twelve (12) monthly payments of \$201.52 per month

(b). The Customer shall pay no more than the estimated cost shown on the report. If the actual cost of the installation is less than the estimated cost or if the Installation Contractor chooses not to make an installation in accordance with Section 5, the Installation Contractor shall adjust the customer's contribution and advise the Customer.

7. Participation in Other Energy Efficiency Programs

The installed measures are not eligible for incentives from other energy efficiency programs.

8. Authorized Signature of Customer

By signing below, the Customer agrees to the applicability of the terms and conditions described above, and has the authority to commit to the obligations of this agreement.

General Program Overview and Customer Responsibilities

Date: 09/14/2017

Customer Name: Town of Lysander-Highway Garage

Address: 2730 West Entry Rd

Town, State and Zip: Baldwinsville, New York 13027

**The National Grid Small Business program provides energy savings incentives for the 1 for 1 replacement and retro-fit of existing fixtures utilizing the existing electrical wiring and mounting hardware present in the customer facility. Any additional wiring and/or labor which has not been presented by the auditor as part of the Price Adjustment Report or prior to installing the proposed lighting upgrade will result in additional cost passed along to the customer at the time of installation. This additional cost will be presented to the customer at the time these conditions are discovered, and the customer will have the right to cancel work in which additional cost is presented. If this work is canceled, all cost, savings, and incentives as proposed for the basic actions removed will be eliminated from the National Grid invoice for work completed.

***National Grid is not liable, responsible or affiliated with any of the additional work listed.**

**All lamps and ballast which are being replaced must be recycled as part of this program. The customer does not have the option to keep this material for future use.

** In accordance with general electrical safety protocol, all circuits must be labeled on the panel prior to installation. If the panel boxes are not labeled, there will be a pass through fee of \$250.00 after the job is closed out.

**All general waste and disposal generated by installation of the proposed project is the responsibility of the customer to dispose of. This includes fixtures housing, scrap metal, new lighting material packaging, etc. SmartWatt Energy Inc. can coordinate the general waste disposal for the project for an additional fee if agreed to and paid for by the customer before such work begins.

**All lifts and staging cost are the responsibility of the customer. If for any reason the auditor has not included additional cost for lifts and/or staging, and it is found that lifts and/or staging is needed to complete the proposed actions by the electrical contractor during installation, the customer must agree to this additional cost before installation of the proposed actions can take place. This additional cost will be presented to the customer at the time these conditions are discovered, and the customer will have the right to cancel work in which additional cost is presented. If this work is canceled, all cost, savings, and incentives as proposed for the basic actions removed will be eliminated from the National Grid invoice for work completed.

**The customer must provide reasonable access to all lighting fixtures and property where work must be completed to install the proposed scope of work. If immovable objects are present which will lengthen the time required to install the proposed scope of work, the cost associated for this additional time is the responsibility of the customers. Any additional cost which has not been presented by the auditor as part of the Price Adjustment Agreement and Price Adjustment report will result in additional cost passed along to the customer at the time of installation. This additional cost will be presented to the customer at the time these conditions are discovered, and the customer will have the right to cancel work in which additional cost is presented. If this work is canceled, all cost, savings, and incentives as proposed for the basic actions removed will be eliminated from the National Grid invoice for work completed.

**The scope of work as proposed will be the scope of work which is installed. Any changes to this scope of work at the request of the customer resulting in additional labor and/or material cost to SmartWatt Energy Inc. will be passed along to the customer at the conclusion of the project. These additional costs will be provided to the customer before additional work begins and the customer will have the right to install these changes to the scope of work with their own sub-contracted labor if requested. These changes include, but are not limited to; changes to the scope of work to increase light levels and the removal of equipment installed as part of the proposed scope of work which is no longer wanted by the customer after installation.

SmartWatt Additional Work

Date: 09/14/2017

Customer Name: Town of Lysander-Highway Garage
Address: 2730 West Entry Rd
Town, State and Zip: Baldwinsville, New York 13027

The below line items represent the Price Adjustment Report which will be invoiced to the customer directly by SmartWatt Energy:

| Description of Work | Notes | Price/Unit | Number of Units | Price Adjustment Cost |
|---------------------|-------|------------|-----------------|-----------------------|
|---------------------|-------|------------|-----------------|-----------------------|

NO ADDITIONAL WORK NEEDED

Equipment and Customer Contribution

(a) SmartWatt will provide the additional work and services as listed on the attached SmartWatt Price Adjustment Report, incorporated herein by reference. These additional items may include wiring costs, fixture relocations, caps offs, permit fees, cost for work performed after normal day work hours, lift equipment, disposal, and other special applications. In addition, the costs involved with updates required to meet electrical codes/standards are the responsibility of the customer.

(b) The Customer is to pay in full \$0.00 after signing the SmartWatt Price Adjustment Agreement and net 10 days upon invoice after completion of the project.

(c) SmartWatt has based the Lift rental cost and delivery charges on the most common weekly rate. At the end of the project, if it is found that the rental fee has been overstated, SmartWatt will return the unused portion via a return check. If it does become necessary for the rental to be extended longer than the original projection, additional money will be owed. SmartWatt will provide an Invoice for this additional cost and request payment made with 10 days of receipt of Invoice.

By signing below, the customer agrees to the applicability by the Installation Contractor (SmartWatt Energy Inc.) of all Customer Responsibilities as described above and the terms and conditions for payment of the Price Adjustment Report.

National Grid ("Company") is offering an energy conservation program ("Program") to certain commercial and industrial customers ("Customer") that have an average monthly demand less than or equal to 110 kW. Under the Program, the Company is arranging the installation of certain energy efficiency measures ("Measures") at the facilities of eligible customers. Customer agrees to have a contractor hired by the Company for the Program install the Measures and pay a portion of the installation cost as described in Section Six listed below. The following are terms and conditions that govern the Program and the installation of the Measures.

1. Measures to be Installed

An independent contractor ("Installation Contractor") hired by the Company will install at Customer's property the conservation Measures described in Section Six below. The Installation Contractor shall permanently disable all lamps replaced pursuant to this Agreement (make them unfit for reuse). The disposal of any lighting equipment which is removed (with exception of fluorescent ballasts and lamps) will be the responsibility of the participating Customer. The disposal of any fluorescent ballasts and lamps will be the responsibility of an outside contractor hired by the Company.

2. Installation Date

The Installation Contractor will attempt to install the Measures within thirty (30) days of Customer signing this Agreement. Measure installations must be completed between 1/1/2017 - 12/31/2017.

3. Warranty and Disclaimers

- (a) The Company will provide a one-time equipment replacement free of charge for any equipment that fails to operate according to manufacturer's specifications for a period of two years after the date of the original installation. Lamps will be warranted for one year.
- (b) Customer may have other warranty rights that may have been provided by the manufacturer of the devices installed under this Agreement. Customer, however, may exercise such rights only against the manufacturer, and not against the Company or its affiliates.
- (c) OTHER THAN THE REPLACEMENT WARRANTY STATED IN SUBPARAGRAPH 3(a) ABOVE, NEITHER THE COMPANY NOR ITS AFFILIATES MAKE ANY WARRANTIES OF ANY KIND, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE
- (d) The Company does not guarantee that the Measures will, in fact, save any level of energy or result in a lowering of the customer's electric utility bill.
- (e) Neither the Company nor its affiliates shall be liable to Customer for consequential or incidental damages arising out of the Program, whether in contract, tort (including negligence) or any other theory of recovery

4. Access to Property

- (a) Customer will provide reasonable access to Customer's property during normal business hours for Installation Contractor to perform the installation work.
- (b) In addition, the Customer will allow the Company to make a reasonable number of follow-up visits during the twenty-four months following installation, with advance notice and at a time convenient to the customer. The purpose of the follow-up visits is to provide the Company with an opportunity to review the operation of the Measures for program education purpose. During the follow-up visits, the Company may make suggestions to the Customer regarding operation of the Measures, but the Customer is under no obligation to follow any such suggestions. If the Customer does follow any instructions, the Company will not be liable to the Customer in tort (including negligence) for the Customer's reliance on the suggestions.

5. Discretion of Installation Contractor

When undertaking the installation, the Installation Contractor or the Company (at their sole discretion) may choose not to make the installations specified below for reasons related to safety, discovery of unforeseen conditions, or the complete utilization of the Company's program budget.

**** In accordance with general electrical safety protocol, all circuits must be labeled on the panel prior to installation. If the panel boxes are not labeled, there will be a pass through fee of \$250.00 after the job is closed out.**

****All general waste and disposal generated by installation of the proposed project is the responsibility of the customer to dispose of. This includes fixtures housing, scrap metal, new lighting material packaging, etc. SmartWatt Energy Inc. can coordinate the general waste disposal for the project for an additional fee if agreed to and paid for by the customer before such work begins.**

****All lifts and staging cost are the responsibility of the customer. If for any reason the auditor has not included additional cost for lifts and/or staging, and it is found that lifts and/or staging is needed to complete the proposed actions by the electrical contractor during installation, the customer must agree to this additional cost before installation of the proposed actions can take place. This additional cost will be presented to the customer at the time these conditions are discovered, and the customer will have the right to cancel work in which additional cost is presented. If this work is canceled, all cost, savings, and incentives as proposed for the basic actions removed will be eliminated from the National Grid invoice for work completed.**

****The customer must provide reasonable access to all lighting fixtures and property where work must be completed to install the proposed scope of work. If immovable objects are present which will lengthen the time required to install the proposed scope of work, the cost associated for this additional time is the responsibility of the customers. Any additional cost which has not been presented by the auditor as part of the Price Adjustment Agreement and Price Adjustment report will result in additional cost passed along to the customer at the time of installation. This additional cost will be presented to the customer at the time these conditions are discovered, and the customer will have the right to cancel work in which additional cost is presented. If this work is canceled, all cost, savings, and incentives as proposed for the basic actions removed will be eliminated from the National Grid invoice for work completed.**

****The scope of work as proposed will be the scope of work which is installed. Any changes to this scope of work at the request of the customer resulting in additional labor and/or material cost to SmartWatt Energy Inc. will be passed along to the customer at the conclusion of the project. These additional costs will be provided to the customer before additional work begins and the customer will have the right to install these changes to the scope of work with their own sub-contracted labor if requested. These changes include, but are not limited to; changes to the scope of work to increase light levels and the removal of equipment installed as part of the proposed scope of work which is no longer wanted by the customer after installation.**

Prepared by SmartWatt Energy

SmartWatt Additional Work

Date: 09/14/2017

Customer Name: Town of Lysander - Municipal Building

Address: 8220 Loop Road

Town, State and Zip: Baldwinsville, NY 13027

The below line items represent the Price Adjustment Report which will be invoiced to the customer directly by SmartWatt Energy:

| Description of Work | Notes | Price/Unit | Number of Units | Price Adjustment Cost |
|---------------------|-------|------------|-----------------|-----------------------|
|---------------------|-------|------------|-----------------|-----------------------|

NO ADDITIONAL WORK NEEDED

Equipment and Customer Contribution

(a) SmartWatt will provide the additional work and services as listed on the attached SmartWatt Price Adjustment Report, incorporated herein by reference. These additional items may include wiring costs, fixture relocations, caps offs, permit fees, cost for work performed after normal day work hours, lift equipment, disposal, and other special applications. In addition, the costs involved with updates required to meet electrical codes/standards are the responsibility of the customer.

(b) The Customer is to pay in full \$0.00 after signing the SmartWatt Price Adjustment Agreement and net 10 days upon invoice after completion of the project.

(c) SmartWatt has based the Lift rental cost and delivery charges on the most common weekly rate. At the end of the project, if it is found that the rental fee has been overstated, SmartWatt will return the unused portion via a return check. If it does become necessary for the rental to be extended longer than the original projection, additional money will be owed. SmartWatt will provide an Invoice for this additional cost and request payment made with 10 days of receipt of Invoice.

By signing below, the customer agrees to the applicability by the Installation Contractor (SmartWatt Energy Inc.) of all Customer Responsibilities as described above and the terms and conditions for payment of the Price Adjustment Report.

Re: 2017 Post-Closure Monitoring Assistance & Analytical Proposal
Closed Town of Lysander Landfill

File: 708.4150

Dear Mr. Yager:

In response to your request, we have prepared the following proposal for landfill monitoring and analytical services for the 2017 Fourth Quarter post-closure monitoring event at the closed Town of Lysander Landfill. The required monitoring activities will be performed as outlined in the post-closure monitoring and maintenance plan for the closed landfill.

Barton & Loguidice, D.P.C. (B&L) will provide a one-person sampling crew to assist you with the 2017 Fourth Quarter Routine monitoring event. We will plan to utilize the analytical services of ALS Environmental (ALS) located in Rochester, New York. Our services will include the following:

- Sample preparation (bottle order, field sheet documentation preparation, instrument calibration).
- 8-hours of on-site sampling assistance.
- All necessary sampling equipment.
- All necessary field analytical instrumentation (pH, temperature, turbidity, Eh, and specific conductance).
- Submittal of analytical report along with appropriate sampling documentation (field data sheets, instrument calibration logs and landfill inspection) within 30 days of sampling event.

Not included in this proposal are any additional costs or services associated with special sampling or testing that may be requested by the Town or by NYSDEC. Although not expected, if any additional services were found to be necessary, we would prepare a supplemental cost estimate for your review and authorization. Again, we do not anticipate the need for any additional services.

Allen J. Yager, P.E.
 Town of Lysander Engineer
 September 19, 2017
 Page 2

The proposed costs below will not be exceeded for the scope of services outlined above. Invoices will be prepared on a percent complete lump sum basis for this project. Our total costs to perform these services are:

| | |
|--|----------------|
| B&L Landfill Monitoring Services | \$1,300 |
| ALS Analytical Services (Baseline Event) | <u>\$1,940</u> |
| 2017 Total Lump Sum Fee | \$3,240 |

If this proposal is acceptable, please authorize below and return one copy of this letter agreement to us. This will serve as our notice to proceed with the 2017 post-closure monitoring at the closed Town of Lysander Landfill. Upon receipt of the notice to proceed we will coordinate with you to schedule a date to perform the Fourth Quarter post-closure monitoring.

Please contact Darik Jordan or me if you have any questions about this proposal or the upcoming 2017 post-closure monitoring program. As always, it is a pleasure to assist the Town of Lysander with professional engineering and environmental consulting services.

Very truly yours,

BARTON & LOGUIDICE, D.P.C.

Scott D. Nostrand, P.E.
 Senior Vice President

Darik M. Jordan
 Senior Project Environmental Scientist

Authorization

Barton & Loguidice, D.P.C., is hereby authorized by Town of Lysander ("Owner") to proceed with the services described herein in accordance with the attached Terms and Conditions.

 Joseph P. Saraceni, Supervisor
 Town of Lysander

 Date

STANDARD TERMS AND CONDITIONS
for
PROFESSIONAL ENGINEERING SERVICES
provided by
BARTON & LOGUIDICE, D.P.C. ("ENGINEER")

The OWNER and the ENGINEER, for themselves, their successors and assigns, have mutually agreed and do agree with each other as follows:

1.0 Basic Agreement

Engineer shall provide, or cause to be provided, the services set forth in the proposal to which these terms and conditions are attached (PROPOSAL), and Owner shall pay Engineer for such Services as set forth in PROPOSAL. The PROPOSAL, in conjunction with these terms and conditions, is referred to herein as "Agreement".

2.0 Payment Procedures

Engineer will prepare a monthly invoice in accordance with Engineer's standard invoicing practices and submit the invoice to Owner. Invoices are due and payable within 30 days of the date of the invoice. If Owner fails to make any payment due Engineer for services and expenses within 30 days after the date of Engineer's invoice, the amounts due Engineer will be increased at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) from said thirtieth day. In addition, Engineer may, without liability, after giving seven days written notice to Owner, suspend services under this Agreement until Engineer has been paid in full all amounts due for services, expenses, and other related charges.

3.0 Additional Services

If mutually agreed by Owner and Engineer, or if required because of changes in the Project, Engineer shall furnish services in addition to those set forth in the PROPOSAL if requested by the Owner. Owner shall pay Engineer for such additional services as follows: (1) as mutually agreed by Owner and Engineer, or (2) an amount equal to the cumulative hours charged to the Project by each class of Engineer's employees times standard hourly rates for each applicable billing class; plus reimbursable expenses and Engineer's consultants' charges, if any.

4.0 Termination

If Engineer's services related to the project are terminated for any reason, Engineer shall be compensated for time plus reasonable expenses associated with demobilizing personnel and equipment, and, if requested in writing by the OWNER, for completion of tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

5.0 Controlling Law

This Agreement is to be governed by the law of the state in which the Project is located.

6.0 Successors, Assigns, and Beneficiaries

Owner and Engineer each is hereby bound and the partners, successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted herein the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the partners, successors, executors, administrators, and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

7.0 General Considerations

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with Engineer's services. Engineer and its consultants may use or rely upon the design services of others, including, but not limited to, contractors, manufacturers, and suppliers.

B. Engineer shall not at any time supervise, direct, or have control over any contractor's work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by any contractor, for safety precautions and programs incident to a contractor's work progress, nor for any failure of any contractor to comply with laws and regulations applicable to contractor's work.

C. Engineer neither guarantees the performance of any contractor nor assumes responsibility for any contractor's failure to furnish and perform its work in accordance with the contract between Owner and such contractor.

D. Engineer shall not be responsible for the acts or omissions of any Contractor, Subcontractor, or Supplier, or of any of their agents or employees or of any other persons (except Engineer's own agents, employees, and Consultants) at the Site or otherwise furnishing or performing any Work; or for any decision made regarding the Contract Documents, or any application, interpretation, or clarification, of the Contract Documents, other than those made by Engineer.

E. All design documents prepared or furnished by Engineer are instruments of service, and Engineer retains an ownership and property interest (including the copyright and the right of reuse) in such documents, whether or not the Project is completed.

F. To the fullest extent permitted by law, Owner and Engineer (1) waive against each other, and the other's employees, officers, directors, agents, insurers, partners, and consultants, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to the Project, and (2) agree that Engineer's total liability to Owner under this Agreement shall be limited to \$50,000 or the total amount of compensation received by Engineer pursuant to the PROPOSAL, whichever is greater.

G. The parties acknowledge that Engineer's scope of services does not include any services related to a Hazardous Environmental Condition (the presence of asbestos, PCBs, petroleum, hazardous substances or waste, and radioactive materials) except as may be specifically defined in the Scope of Services. If Engineer or any other party encounters a Hazardous Environmental Condition, Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until Owner: (i) retains appropriate specialist consultants or contractors to identify and, as appropriate, abate, remediate, or remove the Hazardous Environmental Condition; and (ii) warrants that the Site is in full compliance with applicable Laws and Regulations.

H. The services to be provided by Barton & Loguidice under this Agreement DO NOT INCLUDE advice or recommendations with respect to the issuance, structure, timing, terms or any other aspect of municipal securities, municipal derivatives, guaranteed investment contracts or investment strategies. Any opinions, advice, information or recommendations provided by Barton & Loguidice are understood by the parties to this Agreement to be strictly *engineering* opinions, advice, information or recommendations. Barton & Loguidice is not a "municipal advisor" as defined by 15 U.S.C. 78o-4 or the related rules of the Securities and Exchange Commission. The other parties to this Agreement should determine independently whether they require the services of a municipal advisor.

8.0 Dispute Resolution

Owner and Engineer agree to negotiate all disputes between them in good faith for a period of 30 days from the date of notice by either party of the existence of the dispute. If the parties fail to resolve a dispute through negotiation then Owner and Engineer agree that they shall first submit any and all unsettled claims, counterclaims, disputes, and other matters in question between them arising out of or relating to this Agreement or the breach thereof ("Disputes") to mediation by a mutually acceptable mediator. Owner and Engineer agree to participate in the mediation process in good faith and to share the cost of the mediation equally. The process shall be conducted on a confidential basis, and shall be completed within 120 days. If such mediation is unsuccessful in resolving a Dispute, then (1) the parties may mutually agree to a dispute resolution of their choice, or (2) either party may seek to have the Dispute resolved by a court of competent jurisdiction.

9.0 Accrual of Claims

All causes of action between the parties to this Agreement including those pertaining to acts, failures to act, failures to perform in accordance with the obligations of the Agreement or failures to perform in accordance with the standard of care shall be deemed to have accrued and the applicable statutes of limitations shall commence to run not later than either the date of Substantial Completion for acts, failures to act or failures to perform occurring prior to Substantial Completion, or the date of issuance of the Notice of Acceptability of Work for acts, failures to act or failures to perform occurring after Substantial Completion.

10.0 Total Agreement

This Agreement constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. In the event of a conflict with contractual provisions in a Purchase Order authorization related to this Agreement, the provisions of this Agreement shall control. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

Re: Crimson Ridge Phase IV

Subj: Road & Utility Acceptance

Dear Town Board Members:

I conducted a final punch list inspection of the following streets and utilities which compromise the Crimson Ridge Phase IV subdivision. Phase IV of Crimson Ridge contains the roadway and associated utilities for the street listed below.

| <u>Street</u> | <u>Length</u> |
|----------------|---------------|
| Venetian Drive | 0.193 miles |

The streets were designed and constructed to conform to the Highway Construction Specification Ordinance of the Town of Lysander and are in satisfactory condition.

Attached is a punch list of work items which remain to be completed. The value of the punch list is \$37,000 which I recommend as the amount of the performance bond or other security to be established by the Town Board and deposited by the developer.

Please note that in addition to the street, this project will involve the deeding of sewerage and drainage facilities. It is my understanding that the necessary special districts are in place, however I am not aware that the required deeds, utility easements, or other legal documents have been tendered to the Town Attorney.

Concerning the portion of the Highway Ordinance dealing with signs, the developer will need to provide the Town Highway Superintendent with all required stop signs and ancillary posts for installation by the Town Highway Department.

| <u>Location</u> | <u>Legend</u> | <u>MUTCD No.</u> | <u>Size</u> |
|--|---------------|------------------|-------------|
| 1. North end of Venetian Drive Entering Samantha Drive | STOP | R1-C1 | 30"x30" |
| 2. North Bound on Samantha Drive At the South end of Venetian Drive | STOP | R1-C1 | 30"x30" |

The designated stop intersections must be approved by a Local Law Filing to amend chapter 129 of the Town Code.

The Town Code allows the Town Board to set the amount of the required maintenance guarantee between 25% and 100% of the project value. I estimate the value of the roadway, sewer and drainage to be approximately \$313,135 (estimate attached), such that the guarantee could range from \$78,238 (25%) to \$313,135 (100%), at your discretion.

Regards

Re: Collington Pointe East Construction Drawings

Subj: Construction Drawing Acceptance

Dear Town Board Members:

I have completed my review of the Collington Pointe East construction drawings dated May 26, 2017 with a latest revision date of September 20, 2017 as prepared by CHA Associates. At this time I have no further review comments and consider the documents acceptable. My approval applies to the following sheet numbers included in the contract drawings and is limited to infrastructure to be dedicated to the Town including the roadway, storm sewer, and sanitary sewer mains contained in the full set of construction drawings.

| Sheet Number | Sheet Title | Final Revision Date |
|--------------|--|---------------------|
| C-000 | Title Sheet | September 20, 2017 |
| C-001 | Legend & General Notes | September 20, 2017 |
| C-100 | Existing Conditions Plan | September 20, 2017 |
| C-101 | Existing Conditions Plan South | September 20, 2017 |
